

Argusville Special Meeting (Public Input Meeting)  
May 8, 2017

The Public Input Meeting was called to order at 7:04 PM by Mayor Lyson with the council members and representatives from Moore Engineering in attendance: Council members Dave Becker, Wayne Hagemeister, and Randy Teberg, Moore Engineering representatives Justin Hall and Brandon Oye. Community members who were present signed the sign-in sheet presented by Moore Engineering and were not separately noted.

Hall and Oye gave a presentation regarding the proposed development project regarding the sewer, water and street improvements in the Original Townsite. The presentation covered (1) an overview/history of the project development from the summer, 2016 to present; (2) the proposed scope area; (3) the history of sewer, water, storm and streets, (5) the need for proposed improvements; (6) project alternatives; and (7) a summary of costs. Following the presentation, the public was given the opportunity to ask questions and provide feedback, and then next steps were discussed.

Discussion regarding options, costs, which projects may be considered most critical, current state of water supply for City, and any future plans for development. Suggestion was made to send out additional information to residents regarding the projects and anticipated costs.

Meeting adjourned 8:00 PM.
